

Minimum Essential Media with Hank's Salts and L-Glutamine (MEM)

Catalog Number: 09021

Product Description

Minimum Essential Medium (MEM) is a modification of Basal Medium Eagle (BME) that contains higher concentrations of amino acids to more closely resemble mammalian cell composition. Supplementation of non-essential amino acids to the formulations that incorporate either Earles', Hanks' or Eagles' salts has broadened the usefulness of this medium.

Specification

MEM with Hank's Salts and L-Glutamine
with L-glutamine (2mM)
with sodium phosphate monobasic

Liquid, sterile-filtered	
pH	7.4 ± 0.2
Osmolality	320 ± 20
Endotoxin	< 1.0 EU/ml
Expiration	12 months
Human cell culture test	pass

Product Use

MEM is for research use only. It is not approved for human or animal use, or for application in *in vitro* diagnostic procedures.

Storage

Store the medium at 2 - 8°C. Protect from light.
